MONROE DOCTRINE

President Roosevelt, in a Speech,
Said He Believed in It
With All His Soul.

BUILD UP AN ADEQUATE NAVY.

Let Congress Provide Means to Make
That Navy the Most Effective
One on the Globe.

It Will Help the Foreign Nations to
Persevere in Their Present Good
Intentions If We Are
Well Armed.

Boise, Ida., May 29.—President Roosevelt, in his speech here Thursday, said, among other things: "I believe with all my soul in the Monroe doctrine. This western hemisphere is not to become a region for conquest over which foreign ministerial powers may acquire control. I think that should be a cardinal doctrine of our American foreign policy. But I would a great deal rather see us never announce that policy than for us to announce it and then lack either the will or the power to make it good. The one means for making it good is building up an adequate navy. I ask congress to go on with the building of the navy; that congress go on providing means to make that navy the most effective on the globe. I earnestly hope that not in our time will we see war again, but it is not only necessary that we should want to act rightly toward other nations and I think I can say that we do, but it is necessary that they should all of them want to act rightly towards us and while I believe that they do, I think it will help them to persevere in their good intentions if we are well armed."

President Roosevelt's train stayed at Boise Thursday afternoon for two hours on the way to Salt Lake City. The program arranged for his reception was carried out without a hitch. President Roosevelt and party marched through a lane of children as they approached the grand stand erected at the capitol grounds. About 2,000 children cheered him lustily and waved flags.

The city was thronged with people to see and hear the president. He was introduced by Gov. Morrison and spoke for 40 minutes. The president was then taken for a drive about Boise.

GUNS OF NEW DESIGN.

Those Ordered From Germany Are
Practically Completed.

Washington, May 29.—Some time ago the war department ordered 50 3-inch field guns of the new design and type to be manufactured in Germany. These guns are now practically completed and Capt. John W. Joyes, of the ordnance department, has been designated to receive them at Dusseldorf, Germany. A quantity of ammunition will be shipped at the same time. The reason stated for ordering these field guns from a German manufacturer was that the manufacturers of this country were too busy to fill the orders of the war department, only one out of 27 firms responding to a circular asking proposals and this one wanting two years within which to make deliveries against seven months by the German firm. The arsenals of the United States also were overcrowded with work.

TO JOIN THE EAGLES.

President Roosevelt Will Be Initiated
Into the Order at Cheyenne.

Cheyenne, Wyo., May 29.—The invitation of the local lodge of Eagles to President Roosevelt asking him to be initiated into the order on his visit to Cheyenne on May 30 is said to have been accepted by the president Thursday and preparations for the event are now under way. NOT FOR HIM.

Former Governor Bradley Says He's
Not a Candidate For Governor.

Louisville, Ky., May 29.—Former Gov. W. O. Bradley Thursday night issued a statement denying the report that he will be a candidate for the republican nomination for governor. Gov. Bradley says he will not allow his name to be used and that he has retired from politics for good. He will now devote his entire time to the practice of law.

In his statement Gov. Bradley endorses the candidacy of Hon. A. E. Willson, of this city, saying he is the strongest of the three candidates now in the race. He further states that Mr. Willson has no hopes of being appointed to the United States supreme bench when Judge Harlan resigns.

NOT NECESSARY.

Pharmacists Need Not Register to Sell
Proprietary Medicines.

Frankfort, Ky., May 29.—In the case of the Kentucky board of pharmacy vs. Cassaday and others from Lexington, the court of appeals Thursday decided that the selling of patent proprietary medicines by retail dealers who are not pharmacists was not an offense under the pharmacy act requiring persons who sell drugs to be registered pharmacists. The Lexington court refused to fine Cassaday and others for selling a patent sub acid drink which possessed medicinal qualities and was so advertised, and the court of appeals upholds the lower court.

JUDGE REDWINE ILL

If His Condition Grows Worse
a Special Judge Will Probably
Be Appointed.

ATTEMPT TO REMOVE A BAILIFF.

Plot to Rescue or Kill Jett and White
in the Jail Was Frustrated
by the Troops.

The Sentries Were Fired on From Ambush
and the Fire Was Returned
—There Was One Death,
a Stray Cow.

Jackson, Ky., May 29.—The frustration of what the troops believe was a plot to rescue or kill Curtis Jett and Tom White Wednesday night increased tension in Jackson Thursday. How many men were involved beside the one fired on and who returned the sentry's fire, and what relation the incident had to the playing of a search light on the jail grounds from a nearby mountain side earlier in the night are questions in which actual interest is felt.

The illness of Judge Redwine put a new phase on the entire situation. If his condition grows worse a special judge will probably be appointed. The attempt to remove the special bailiff, B. J. Little, is a matter of much interest. The grounds offered are that his brother married Mrs. E. Marcum's sister and that the relationship might influence him in the discharge of the duties of sheriff.

Maj. Allen, who in the absence of Col. Williams in Lexington is in command, gave out the following statement concerning the affair Wednesday night: Just as the storm broke the sentry at the south side of the jail observed a man approaching from the Jackson deposit bank. He gave two commands to halt which were unheeded and then gave warning that he would fire unless the man halted. His words were answered by one or two shots. The guard disagrees as to whether the prowler fired once or twice and whether or not he fired at the sentry can of course only be imagined as he was not hit. The darkness was intense and objects could only be seen by lightning flashes. Harper and two other guards returned the fire. The marks seen Thursday morning indicate with what destruction. A minute later the sentry at the north side of the jail observed a moving object which he thought was a man and horse coming toward him. He commanded a halt three times before he fired. The object, a cow, was instantly killed. The adjutant paid the owner \$40 for the loss Thursday morning. The glass front of the bank was penetrated and an unlighted lamp on the counter shot through. It is believed that the prowler was sheltered by the stone fence around the court house.

The Gatling gun squad remained on duty all night and momentarily expected to be called on to repel an attack. Very few of the soldiers slept at all. About 50 men from the county were in town Wednesday evening. It is the popular belief that the plan was to pick off the Gatling gun squad with the aid of the search light and then rush the guard. The search of visitors to the court room Thursday resulted in the finding of only one weapon, a large knife. John Oneal, of Covington, attorney, was sworn in at this bar Thursday. He is preparing to have the trial for Monday a week. Prosecutor Byrd announced his intention to ask for a special jury venire from another county to try Jett and White.

Small Riot at Milwaukee.

Milwaukee, Wis., May 29.—As a result of the tanners' strike here a pitched battle occurred in front of Gallum's tannery and two non-union workmen were severely handled by a mob of 150 strikers. James Bastun, a striker, received a bad cut over the left temple.

POWER AND LIGHT

From the Irish Potato—A Cheap Alcohol
Made From the Tuber That is
Being Utilized.

[Exchange.]

The insignificant potato hide fair to become for Germany what the corn plant is to America—a creator of great national wealth. The tuber thrives remarkably well in that country, and the annual production is very large. Heretofore its uses, aside from its edible value, have been confined to the production of starch, glucose sirup, potato flour, dextrin and starch sugar. The two recent inventions of the Welsbach burner and the gas engine, strange as it may seem, have opened up new uses for the potato alcohol, which can be produced in unlimited quantities to sell at retail at about 17 cents per gallon. This alcohol used in a lamp with a mantle produces a wonderfully brilliant light, rivaling the electric arc light in intensity, while used in the gas engine it affords a very cheap motive power. The brightest minds in the empire are engaged in developing this thing, which bids fair to make a great nation independent of both coal and petroleum.

W. C. Morro will deliver a lecture at Beasley Creek Church Saturday, May 30th, at 8 p. m., on Egypt, the pyramids, tombs, monuments, the mosques and relics of mediaeval times. Admission to lecture, 15 cents for adults, 10 cents for children. Refreshments 15 cents. Proceeds go to educate Japanese girls brought over by Rev. and Mrs. E. W. Stevens. The public invited.

The office and iron clad warehouse back of it were bought by P. P. Parker for \$2,500, and the three lots west of the office to Mrs. Collins for \$1,061, who also bought the four lots corner of Second and Lexington for \$2,513. Mr. John Duley bought five lots on Lexington for \$1,252 and the lots corner of Lexington and Forest avenue, for \$971 50. The Briscoe property was sold to F. M. King for \$610, and the residence on West Third to the Limestone Building Association for \$1,730.

CHANGE OF FAITH.

The Presbyterians of the United
States Unanimously Adopted
a New Confession.

WAS PREPARED BY A COMMITTEE

The Tennessee Overture, Commonly
Known as the "Colored Question,"
Was Referred to a Commission.

Infant Damnation is Ousted From the
Creed—Three Additional Chapters
Are Added to Confession Concerning the Love of God.

Los Angeles, Cal., May 29.—The Presbyterian church of the United States in general assembly by unanimous vote Thursday adopted the revision of the confession of faith as prepared by the committee appointed by the general assembly in 1901. The "Tennessee overture" in regard to "separate presbyteries in the same territory," which was commonly known as the "colored question" of the Presbyterian church, was referred to a committee and the report of the special committee on divorce and remarriage was adopted.

Protests from Lehigh and from St. Cloud presbyteries were thrown out by vote.

Dr. Van Dyke then proceeded with the report of the revision committee. He read the detailed vote on each of the 11 overtures, which showed that no one overture had received more than ten negative votes. The overtures were voted on seriatim and adopted. But one voice in the negative was heard, and this on overtures 5, 6 and 7.

By the adoption of the 11 overtures, important additions, modifications and amendments are made to the articles of the confession of faith.

Infant damnation is ousted from the creed in the following words: "That concerning those who are saved in Christ, the doctrine of God's eternal decree is held in harmony with the doctrine of His love to all mankind. . . . That it is not to be regarded as teaching that any who die in infancy are lost. We believe that all dying in infancy are included in the election of grace and are regenerated and saved by Christ, through the spirit, who works where and how he pleases."

For section 6, chapter xxv. of Confession of Faith, the following is substituted: "The Lord Jesus Christ is the only head of the church and the claim of any man to be the vicar of Christ and the head of the church is unsupportable without warrant in fact and is an usurpation dishonoring to the Lord Jesus Christ."

Three additional chapters are added to the confession concerning the "Love of God for all men, missions and holy spirit."

Dr. Minton, chairman of the revision committee, spoke briefly and was followed by Dr. Charles A. Dickey, who said that the adoption of this report was an omen of speedy union or, at least, speedy unity of all the presbyterians in this country, and a step toward Protestant unity.

On motion of Moderator Coyle the report of the revision committee was adopted by unanimous vote, and the next 20 minutes was spent in song and prayer.

WHO WILL BUILD THE TRACTION LINE TO MT. OLIVET?

The people of Maysville and Mt. Olivet and those along the line. Are you ready to do your part? Let it be built this year. The cars should be running by December, 1903.

Some people are great on talk, but money is needed to build traction lines. How much will you help?

THE CITY FIRE DEPARTMENT.

Some business men want the BULLETIN to agitate the question of a modern fire department. The BULLETIN has advocated such an innovation, (in would be an innovation for Maysville), for several years, and has suggested plans for rendering the department more efficient at no great outlay, but these suggestions have never received any consideration.

If the property owners of Maysville want any improvement in the city's fire department, the quickest way to get it is for them to meet in a body, go before Council and demand it. They will have no better department than they demand. Maybe they will take action of this kind "some sweet day" after a fire has wiped a square or two of business houses out of existence.

It's getting worse and worse, that scandal in the Postoffice Department, the more it is probed. Augustus W. Machen, General Superintendent of the Rural Free Delivery Service, is under arrest on a charge of bribery in connection with commissions received from contracts made with a firm for a patent street letter box fastener. The amount specifically charged in the warrant is \$18,981.78, though it is said the total sum involved is \$22,000. He was summarily dismissed from office by Postmaster General Payne, having been suspended a few days before. Diller B. and Samuel A. Groff were also arrested on the charge of bribing Machen. Among other charges filed against Machen and now undergoing investigation is one that he has sold, through his inspectors, private information to certain newspapers as to the establishment of routes in advance in order to allow the publishers of these newspapers to canvass the routes two and three weeks in advance of their contemporaries.

Soda water at Ray's fountain to-day.

New sewing machine \$15 at Gerbrich's.

The total wealth of the world is estimated at \$400,000,000,000. Of this amount the United States owns about \$100,000,000,000, with Great Britain next with less than \$60,000,000,000.

The statement is made that Rev. F. W. Harrop was robbed of \$25 while attending the Knights Templar convocation at Owensboro last week. Rev. Harrop was placed in a room with a stranger who disappeared after going through the minister's pockets.

At the commencement of Kentucky Wesleyan College Wednesday the honorary degree of Doctor of Divinity was conferred on J. E. Dickey, President of Emory College, Oxford, Ga., Rev. J. L. Stokes, of South Carolina, Rev. B. A. Jenkins, President of Kentucky University, Lexington, Rev. W. G. McCready and Rev. Alex. Redd, of Winchester. The honorary degree of Doctor of Laws was given to Judge E. C. O'Rear, of the Court of Appeals, and to Judge W. M. Beckner, of Winchester.

STREET IMPROVEMENTS.

The Cost of Brick Streets Must be Prorated Between City and Owners of Abutting Property.

In the Court of Appeals Wednesday, Judge O'Rear delivered an opinion reversing the judgment of the Boyd Circuit Court in the case of the city of Catlettsburg against John Self and others. The action was by the appellees to enjoin the city from the collection of assessments made against the property owners for \$25,000 worth of street improvements. The appellees fought the payment of the assessments on the grounds that the work was not original construction, and that the city, which issued bonds for the improvement, must pay them off.

The court here, in reversing the lower court, says that while the paving of the street with brick was a radical improvement the street which it took the place of was probably in the nature of a temporary makeshift till such time as the growth, affairs and importance of the municipality would justify its making more permanent and expensive roadway. "This view of the law," says the court, "seems to have been founded upon the idea that as the abutting property is more benefitted by a radical and permanent improvement, it should bear the cost of it; but where it has once done that, reconstruction should be borne by the entire municipality. Until the abutting property has once been compelled to bear the burden it is original construction." For these reasons the bonds were not, the court says, a debt or liability upon the city for the year 1900, and in excess of the revenues of that year.

In brief, the court decides that the putting in of vitrified brick streets is "original construction" in the meaning of the statutes, and that abutting property owners must pay their pro rata part of the cost of construction. This is the first time the court has directly passed on this question, which is a most important one to all cities of the third, fourth and fifth classes.

At a meeting at Wilmore \$16,000 in stock was subscribed in the Asbury Holiness College to teach the Rev. J. W. Hughes theory.

Maysville Citizens Gladly Testify.

It is testimony like the following that has placed "the Old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Maysville citizen:

Mr. Elias Scudder, nurseryman, residing at 215 Casto street, says: "I had a good deal of pain at times in my right kidney, and it constantly grew more persistent. When I learned of Doan's Kidney Pills at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and their use effected an absolute cure."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

Made a Garden?

Owing to the long drouth gardening has been very backward this spring. If you have not started your garden yet, there is still time to do it and get nearly as good returns as those who planted earlier. Especially will this be the case if you get your seeds here. Our seeds are all of last years growing, and were given the attention needed to produce the best seed. We have all the choicest, quick-growing varieties and they cost not one cent more than what you would have to pay for questionable seed. As the season is so late better not take any chances—get your seed where only good seed is sold—that's here.

From there they will march to the soldiers' monument, where the Post will observe this program:

Grape vines should be pruned in the summer as well as winter in order to have a good crop of grapes.
